

**MEDFORMS®**  
Custom Publishing for Home Care

# eBOOKS

Overview and Features

## OVERVIEW

In addition to the physical Patient Admission booklets created by MedForms, we also offer an eBook solution. An eBook is an electronic copy of an agency's custom Patient Admission Booklet that offers the convenience of a digital product, but provides a booklet-like experience with pages that can be flipped through.

While a physical copy of the booklet is still required to be provided to patients upon admission, eBooks are ideal for Powers of Attorney (POA), guardians, or legal representatives that cannot be present at start of care visits.

### EASY ACCESSIBILITY

- 100% web-based with no viewer required
- View on PC, Mac and all modern mobile devices

### SIMPLE AGENCY DISTRIBUTION

- Simple easy-to-use administration interface
- For agency access, visit <https://ebooks.medforms.com>
- Agency manages creation and distribution of eBook links

### ENSURES ACCURACY

- Ensures accuracy by limiting agency access to only the latest revision of a book for link creation

### CLEAR PRICING

- **Complimentary Licenses:** 5% of your agency's print volume is provided in complimentary digital licenses (i.e., 100 physical books printed = 5 complimentary digital licenses)
- **Purchasing Licenses:** Beyond the complimentary 5%, per license pricing is the same as your physical book pricing, minus any printing upcharges (i.e., NCR forms)
- **One Digital License = One Patient/Family:** Each link to an eBook is unique and is associated with one paid license. One paid license is required per patient/family. The link will permit up to 5 different internet locations (IP addresses) to access the eBook, so the eBook may be shared amongst the patient's family.
- **Expiration:** Purchased Licenses never expire, and Complimentary Licenses expire after one year
